Have you ever asked yourself any of these questions?

- Why can't other people do things (right) like I do?
- Why do I feel so different from others?
- Why do I do some of the crazy things I do?
- Why does _____ drive me crazy?
- How do I move past my roadblocks into healing and wholeness?

The Enneagram, which developed from hundreds of years of wisdom, is a tool for understanding personality—ours and others—and for discerning directions of transformation and freedom for ourselves and as we journey with others through life. In this workshop you will learn the dynamics of Enneagram in both a fun and prayerful manner through presentations and various activities including music, the labyrinth, art, journaling, sharing and prayer.
